WORK & VOLUNTEER EXPERIENCE

Research Assistant — Dr. James Gaskin

Jan 2026 – Present

Brigham Young University Marriott School of Business — Provo, UT

- Leading end-to-end development of an augmented reality space application built in Unity.
- Evaluated and benchmarked alternative AR tools to standardize the development pipeline on Unity.
- Collaborate on cross-project reviews to optimize a faculty-developed statistical platform.

Teaching Assistant — Introduction to Information Systems

Jan 2026 – Present

Brigham Young University Marriott School of Business — Provo, UT

- Provide technical mentorship and debugging support in SQL, VBA, HTML/CSS, and statistics.
- Facilitate hands-on labs covering ERDs, flow charts, Tableau, and Excel Solver.
- Collaborate with faculty to audit, review, and refine course curriculum and materials.
- Design and deliver exam-review presentations that break down complex topics.

Community Aid

Aug 2025 – Present

Brigham Young University Student Family Housing — Provo, UT

- Provide operational support and policy compliance for two multi-family housing complexes.
- Act as an on-call responder for immediate resident needs, maintenance, and emergencies.
- Coordinate resource distribution and logistics for neighborhood events and initiatives.

Automation Specialist

Nov 2025 – Feb 2026

Empowered Cooks — Remote

- Built automated n8n workflows integrating Shopify, Customer.io, and Membership.io, leveraging Postman API.
- Diagnosed, debugged, and rebuilt a failing business-critical automated workflow that had stalled under legacy development.
- Audited and optimized outdated Zapier automations to resolve bugs and keep the data pipeline running.

Records & Information Management Assistant*Jul 2024 – Jan 2026*

BYU Office of Information Technology — Provo, UT

- Provided technical and operational support to a network of 300+ campus record liaisons.
- Developed an Excel VBA macro that cut a quarterly, week-long data-gathering and formatting process down to ~20 minutes.
- Adopted a barcode scanning tool and engineered the data-formatting pipeline to integrate it with existing records systems, eliminating manual tracking errors.
- Programmed a data-matching script cross-referencing monthly HR job-change reports against active liaisons, automating system update flags.
- Authored SOPs and knowledge-base documentation to standardize record-handling processes.
- Ran regular statistical analyses on records activity to forecast infrastructure needs.
- Designed and delivered training materials for full-time inter-departmental staff.

Community Support Worker*Jun 2023 – Aug 2023*

Craig Spjute — Boise, ID

- Supported daily living, social growth, and life-skills training for a client with special needs.

Delivery Driver*Sep 2022 – Jul 2024*

UberEATS & DoorDash — Boise, ID & Provo, UT

- Sustained a 100% customer satisfaction rating through proactive communication.

Full-Time Volunteer Representative*Sep 2020 – Sep 2022*

The Church of Jesus Christ of Latter-day Saints — Mesa, AZ & Scotland / Ireland

- Coordinated and led instruction sessions and prepared weekly progress reports.

Host & Busser*Dec 2018 – Jun 2020*

Olive Garden Italian Kitchen — Boise, ID

- Managed seating flow and table turnover during peak dinner rushes while coordinating between guests and servers.

Carhop & Drive-thru Operator*May 2018 – Aug 2018*

Sonic Drive-In — Boise, ID

- Delivered fast, accurate service on high-volume shifts, efficiently taking orders and handling payments.
